FORWARD LOOKING STATEMENTS

Ventripoint Diagnostics Disclaimer

The information in this presentation may include forward-looking statements related to our future growth, trends in our industry, our financial and or operational results, and our financial or operational performance. Such forward-looking statements are predictive in nature, and may be based on current expectations, forecasts or assumptions involving risks and uncertainties that could cause actual outcomes and results to differ materially from the forward-looking statements themselves. Such forward-looking statements may, without limitation, be preceded by, followed by, or include words such as “believes”, “expects”, “anticipates”, “estimates”, “intends”, “plans”, or similar expressions, or may employ such future or conditional verbs as “may”, “will”, “should” or “would”, or may otherwise be indicated as forward-looking statements by grammatical construction, phrasing or context. For these statements, we claim the protection of the safe harbour for forward-looking statements contained in the U.S. Private Securities Litigation Reform Act of 1995 and applicable Canadian securities laws. The risks and uncertainties referred to above include, but are not limited to: variability of operating results among periods; inability to retain or grow our business due to execution problems resulting from significant headcount reductions, plant closures and product transfer associated with major restructuring activities; the effects of price competition and other business and competitive factors generally affecting the EMS industry; the challenges of effectively managing our operations during uncertain economic conditions; our dependence on a limited number of customers; our dependence on industries affected by rapid technological change; the challenge of responding to lower-than-expected customer demand; our ability to successfully manage our international operations; and delays in the delivery and/or general availability of various components used in the manufacturing process. These and other risks and uncertainties and factors are discussed in the Company’s various public filings at www.sedar.com and www.sec.gov, including our Form 20-F and subsequent reports on Form 6-K filed with the Securities and Exchange Commission. Except as required by applicable law, we disclaim any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

MISSION: Improving the Lives of Patients

To improve the lives of patients by providing clinicians with the tools they need to deliver improved patient care, experiences, and outcomes. We aim to become the standard of care.

VISION: To elevate cardiac care

The technology was founded on a heartfelt desire to find a better way to provide care to children without relying on the highly restrictive MRI and still providing doctors with complete and full information that they need to monitor the heart state and make a confident diagnosis and treatment decisions.

STRATEGY

A Year of Transformation

Ventripoint-Ascend Partnership

- Ventripoint's AI-powered 3D Echo software application has been integrated with ASCEND's diagnostic viewer, InView, and reporting application, Cardiovascular Structured Reporting.
- This cardiovascular workflow product provides an end-to-end solution that rivals other products on the market.
- ASCEND is seamlessly integrated with leading EHRs, and imaging systems. Their existing technology has been installed at 1000+ top ranked healthcare facilities and 600+ health systems with approximately 50,000 users across the United States.

Sales to Two Key Centres in Europe

- The largest heart center in Germany, Deutsches Herzzentrum der Charité (DHZC), German Heart Center, in Berlin, Germany and
- Medical Center – University of Freiburg im Breisgau, Germany

The Future

Sales and Marketing Strategy

Build awareness and establishing leads

- Attended 12 conferences in the U.S., UK, and Europe
- Presented at a workshop hosted by Dr. Laser
- Presentation by Dr. Laser at AEPC

3-pronged approach

- Nurturing key sites to build credibility and reputation
- Build an ecosystem of partners
- Direct sales (i.e. IDNs, major hospital networks) and working with distributors

Creating “beyond the product” partnerships with healthcare providers/institutions

- Reduce the cost of each patient procedure while improving patient outcomes i.e., optimize clinical care by improving image quality, while managing costs by improving patient turnover and using consumables, such as contrast agents, more efficiently.
- Solution is a combination of a product, software, and a service.
- Build credibility by understanding the customers’ business, sales process including key account management, and risk sharing i.e., pay-per-use or pay-for-performance model.

OUR SALES CYCLE AND PROCESS

Our Progress

Steady sales

Established Company

Two significant sales in Germany to activate European sales; 400+ qualified leads,

Build Sales Funnel

Approximately 40 units placed worldwide; nurturing key reference sites and building credibility

Strategic Placements

Hired strategic sales leaders, clinical applications specialists, service technicians, manufacturing personnel

Build Sales and Operations Infrastructure

10-year journey to a commercial-ready product

Commercialize Technology

Ventripoint
Diagnostics Ltd.
