

Ventripoint Exhibiting at the American Society of Echocardiography 33rd Annual Scientific Session

Toronto, Ontario – The Newswire – June 7, 2022 - Ventripoint Diagnostics Ltd. ("**Ventripoint**" or the "**Company**"), (TSXV:VPT; OTCQB:VPTDF) is pleased to announce that it will be exhibiting and attending as a sponsor (<https://www.asescientificsessions.org/sponsors/>) of the American Society of Echocardiography (ASE) 2022 Conference titled "Sound Waves in Seattle: Connecting the World". This is the 33rd annual scientific session of the ASE and is being held in the Seattle Convention Center June 10-13, 2022.

The ASE is an organization (<https://www.asecho.org/about-ase/>) comprised of members of the cardiac field who work to advance cardiovascular ultrasound and strive to promote education, research, innovation, and service to the profession and public. This year's scientific session will be bringing in thousands of attendees from the cardiovascular profession.

Ventripoint will be one of the sponsors for the 2022 event and will have the opportunity to engage with thousands of attendees through networking sessions, an in-person and virtual exhibit, poster presentations, and hands on educational workshops.

Ventripoint joining ASE 2022 through their sponsorship opportunities will highlight the VMS+ and its new developments, engage with new customers, and establish stronger relationships with existing customers.

About Ventripoint Diagnostics Ltd.

Ventripoint has become an industry leader in the application of AI (Artificial Intelligence) to echocardiography. Ventripoint's VMS products are powered by its proprietary KBR technology, which is the result of a decade of development and provides accurate volumetric cardiac measurements equivalent to MRI. This affordable, gold-standard alternative allows cardiologists greater confidence in the management of their patients. Providing better care to patients serves as a springboard and basic standard for all of Ventripoint's products that guide our future developments. In addition, VMS+ is versatile and can be used with all ultrasound systems from any vendor supported by regulatory market approvals in the U.S., Europe and Canada.

Forward Looking Statements

This news release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. The forward-looking statements and information are based on certain key expectations and assumptions made by the Company. Although the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because the Company can give no assurance that they will prove to be correct.

Since forward-looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. Factors which could materially affect such forward-looking information are described in the risk factors in the Company's most recent annual management's discussion and analysis that is available on the Company's profile on SEDAR at www.sedar.com. Readers are cautioned that the foregoing list of factors is not exhaustive. The forward-looking statements included in this news release are expressly qualified by this cautionary statement. The forward-looking statements and information contained in this news release are made as of the date hereof and the Company undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.
