

Ventripoint Announces Up-Listing to OTCQB Venture Market

Toronto, Ontario – The Newswire – January 7, 2022 - Ventripoint Diagnostics Ltd. ("Ventripoint" or the "Company"), (TSXV:VPT; OTC:VPTDF) is pleased to announce the Company has received official notification from OTC Markets to up-list to the OTCQB tier effective as of January 7, 2022. The Company will trade on the OTCQB exchange under symbol "VPTDF"; the Company's common shares will continue to trade on the Toronto Securities Venture Exchange under the symbol "VPT".

Dr. George Adams, CEO, commented, "*Trading on the OTCQB will enhance our visibility and make the Company accessible to a much broader range of U.S. investors and brokers. The quotation on the OTCQB will provide existing and potential investors with a transparent and easily accessible trading platform where they can find Real-Time quotes and market information.*"

Shareholders of existing Ventripoint shares, previously quoted on the OTC[®] Pink Open Market, will now be quoted on the OTCQB without any further action required. Investors can find current financial disclosure and Real-Time Level 2 quotes for the Company on www.otcmarkets.com.

The OTCQB is a US trading platform that is operated by the OTC Markets Group in New York. The OTCQB is the premier marketplace for entrepreneurial and development stage U.S. and international companies that are committed to providing a high-quality trading and information experience for their US investors. To be eligible, companies must be current in their financial reporting, pass a minimum bid price test, and undergo an annual company verification and management certification process. The OTCQB quality standards provide a strong baseline of transparency, as well as the technology and regulation to improve the information and trading experience for investors.

The Company has also completed the application process for eligibility with the Depository Trust Company ("DTC") and expects to have approvals shortly.

About Ventripoint Diagnostics Ltd.

Ventripoint has become an industry leader in the application of AI (Artificial Intelligence) to echocardiography. Ventripoint's VMS products are powered by its proprietary KBR technology, which is the result of a decade of development and provides accurate volumetric cardiac measurements equivalent to MRI. This affordable, gold-standard alternative allows cardiologists greater confidence in the management of their patients. Providing better care to patients serves as a springboard and basic standard for all of Ventripoint's products that guide our future developments. In addition, VMS+ is versatile and can be used with all ultrasound systems from any vendor supported by regulatory market approvals in the U.S., Europe and Canada.
